ZenDAW Logo: Hidden function, press and hold this button to move and adjust the workspace on your touchscreen monitor

Important: Press on NAVIGATION to show the Exit menu and to quit REVEAL

to Toggle show/hide REVEAL's workspace, use the Break Pause key on your PC keyboard (Pause Attn in French)

SHOW / HIDE VIEWS

(Hidden function, press and hold this button to move and adjust the workspace on your touchscreen monitor)

Full Screen = Toggle Full Screen Mode

2nd Window = Toggle Second Window

Hot-Swap = Toggle Hot-Swap Mode

Drum Rack = Toggle Drum Rack/last-selected Pad

Info View = Hide/Show Info View

Video Window = Hide/Show Video Window

Overview = Hide/Show Overview

In / Out = Hide/Show In/Out

Preferences = Open the Preferences

Close Window / Dialog = Close Window/Dialog

Sends = Hide/Show Sends

Mixer = Hide/Show Mixer

Returns = Hide/Show Returns

ARRANGEMENT VIEW

Split Clip = Split Clip at Selection

Consolidate = Consolidate Selection into Clip

Create Fade = Create Fade/Crossfade

[Rollup Toolbar] = Rollup Toolbar

Insert Silence = Insert Silence

Pan L / R of Selection = Pan Left/Right of Selection

(see online: 'Live Keyboard Shortcuts', we couldn't make this function work properly with the factory shortcut indicated associated to this button)

Unfold SEL Tracks = Unfold Selected Tracks

Unfold All Tracks = Unfold all Tracks

Optimize Height = Optimize Arrangement Height

Optimize Width = Optimize Arrangement Width

Reverse Clip(s) = Reverse Audio Clip Selection

Automation Mode = Toggle Automation Mode

Deactivate Selection = Deactivate Selection, Deactivate Selected Clip,

Deactivate Selected Tracks

LOOP

Nudge Left = Nudge Loop Left

Nudge Right = Nudge Loop Right

MOV x 2 Left = Move Loop by Loop Length Left

MOV x 2 right = Move Loop by Loop Length Right

Halve Length = Halve Loop Length

Double Length = Double Loop Length

Shorten = Shorten Loop

Lengthen = Lengthen Loop

Select = Select Material in Loop

[Start Menu] = Show Windows Start Menu

TRACKS

Group = Group Selected Tracks (same function for Group/Ungroup Devices)

Ungroup = Ungroup Tracks

TRACK HEIGHT

H+ Selected Tracks = Adjust Height + for Selected Tracks

H- Selected Tracks = Adjust Height - for Selected Tracks

ZOOM

Zoom = Zoom to Arrangement Time Selection

Zoom Full = Zoom Back from Arrangement Time Selection

Zoom + = Zoom In

Zoom - = Zoom Out

TRACK JUMP

1, 2, 3, 4, 5, 6, 7, 8 = Jump to Track 1..8

First = Go to First Clip/Slot or Scene

Last = Go tot Last Clip/Slot or Scene

GROUP TRACKS

Show = Show Grouped Tracks

Hide = Hide Grouped Tracks

SCROLL EDITOR

Scroll Up = Scroll Editor Vertically Up

Scroll Down = Scroll Editor Vertically Down

Scroll Left = Scroll Editor Horizontally Left

Scroll Right = Scroll Editor Horizontally Right

QUANTIZATION

1/16 = Sixteenth-Note Quantization

1/8 = Eighth-Note Quantization

1/4 = Eighth-Note Quantization

1/1 = 1-Bar Quantization

Quantize = Quantize

Qx = Quantization Off

Quantize Settings = Quantize Settings

[Tablet PC] = Touchscreen Settings

EDITING

Cut = Cut

Copy = Copy

Paste = Paste

Duplicate = Duplicate

Delete = Delete

Undo = Undo

Redo = Redo

Rename = Rename Selected Track

Cut Time = Cut Time

Delete Time = Delete Time

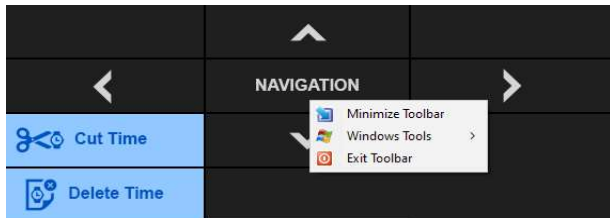

Duplicate Time = Duplicate Time

Select All = Select all Clips/Slots

Rename Next = While Renaming, Go to next Track

NAVIGATION : Hidden Menu (Minimize Toolbar, Exit Toolbar...)

Press or click on **Exit Toolbar** to close REVEAL

Up = Navigation Up
Down = Navigation Down
Left = Navigation Left
Right = Navigation Right
[Enter] = Add Device from Browser
[Shift] = Finer Resolution for Dragging (see online Live keyboard shortcuts for more functions associated with this shortcut)
[Ctrl] = Drop Browser Clips as a Scene (see online Live keyboard shortcuts for more functions associated with this shortcut)
[Alt] = Bypass Snapping While Dragging (see online Live keyboard shortcuts for more functions associated with this shortcut)
Plug-Ins = Show/Hide Plug-In Windows

CAPTURE

Capture MIDI = Capture MIDI
Capture and Insert Scene = Insert Captured Scene

Solo = Solo Selected Track
Arm REC = Arm Record Selected Track

INSERT

Audio Track = Insert Audio Track
MIDI Track = Insert MIDI Track
Return Track = Insert Return Track
Scene = Insert Scene
MIDI Clip = Insert MIDI Clip

SHOW / HIDE VIEWS

Device / Clip = Toggle Devive/Clip Windows
Detail View = Show/Hide Detail View
Arrangement / Session = Arrangement/Session View Selector
Browser = Show/Hide Browser
Groove Pool = Show/Hide Groove Pool
[Display Panel] = Windows Monitor Settings

COMPUTER MIDI KBD

Octave range Up = Adjust Computer MIDI Keyboard Octave Range Up
Octave range Down = Adjust Computer MIDI Keyboard Octave Range Down
Note Velocity Up = Adjust Computer MIDI Keyboard Incoming Note Velocity Up
Note Velocity Down = Adjust Computer MIDI Keyboard Incoming Note Velocity Down

FADES - AUTOMATION

Fade Controls = Momentarily Toggle Fade Controls
Reset Fades = Reset Fades
DEL Auto = Delete Automation/Clear Envelope

BROWSING

Search = Search in Browser
Preview SEL = Preview Selected File
Load SEL = Load Selected Item from Browser

SESSION VIEW

Clip / Slot = Launch Selected Clip/Slot or Scene
Activate = Activate/Deactivate Selected Clip/Slot
Stop button = Add/Remove Stop Button

Back to ARR = Back to Arrangement

MIDI Overdub = MIDI Overdub

TRANSPORT

1, 2, 3, 4, 5, 6, 7, 8 = Activate/Deactivate Track 1..8

Tap Tempo = Tap tempo

Metronome = Metronome

Loop Switch = Toggle Loop Selection

Automation = Automation Arm

START = Move Insert Marker to Beginning

END = Move Insert Marker to End

Follow = Scroll Display to Follow Playback (Auto-Scroll)

Punch-In = Punch-In Switch

Punch-Out = Punch-Out Switch

CONTINUE PLAY / STOP = Continue Play from Stop Point

PLAY / STOP = Play Arrangement View Selection and/or Play from Start Marker/Stop

REC = Arrangement Record Button

FILE

New Live Set = New File

Open Live Set... = Open File

Close Window = Close Window

Export Audio / Video = Export Audio/Video File

Save Live Set = Save File

Save Live Set As... = Save File as

Quit = Quit Live

Export MIDI Clip... = Export MIDI File

GRID TYPE

Narrow Grid = Narrow Grid

Widen Grid = Widen Grid

Snap to Grid = Snap to Grid

Triplet Grid = Triplet Grid

Adaptive Grid = Fixed/Zoom-Adaptive Grid

MODE

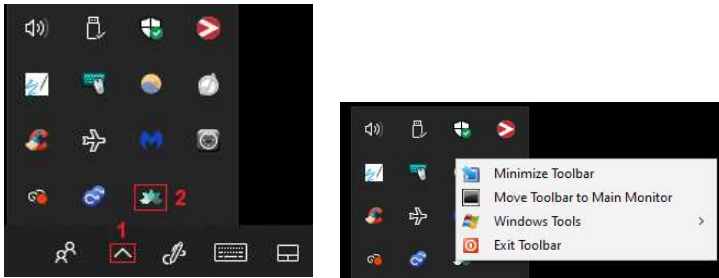

Draw = Toggle Draw Mode

Computer MIDI Keyboard = Computer MIDI Keyboard

Key = Toggle Key Map Mode

MIDI = Toggle MIDI Map Mode

Other Hidden Functions

- 1- Left mouse click: Show hidden icons
- 2- Right mouse click: REVEAL hidden functions
(Minimize Toolbar, Exit Toolbar...)
